Subject: Tribal contacts for Yakama and Umatilla

Hi Wes, as in my voicemail,

I'm working on NPDES permits for the 4 lower Columbia River and 4 lower Snake River dams, and the Grand Coulee Dam and was looking for tribal contacts at the Warm Springs and Umatilla tribes as well as any other tribes that you work with who you think would be interested. This is a fairly specific permit targeting small discharges of oil and grease from operations as well as some non contact cooling water. It's not addressing anything with spill volume or water temperatures released from behind the dams.

The Administrator (inc. Wheeler) have mandated that we issue permits by November 30, 2018, so we're working on a tight schedule. I'm hoping to get in touch with tribes as soon as possible to keep them informed about what we're doing before sending a letter asking if they would like to do formal consultation. If you could send your contacts there, it would be very helpful. If you'd like to discuss more, feel free to give me a call. Thanks! - Jenny Wu, 206-553-6328
